

Fuel Dispensing Systems

Improved Finish and Design

NEW
TEXTURED
FINISH

- » New textured exterior is powder-coated dark gray
- » High UV finish resists fading, scratching and chipping. Protects against moisture and chemicals
- » Improved nozzle holder and hanger design makes operation simple
- » Performs well in salt-spray environments

Cabinet Model:

For fleet operations, golf courses and equipment yards

- » Choose a 115-volt or 230-volt pump. Both deliver up to 20 GPM (76 LPM)
- » Includes MR 5-30 Mechanical Meter with twist knob reset and large readout
- » Includes tank adapter for easy installation
- » Accommodates most gas and diesel nozzles (manual, automatic and vapor recovery)
- » Hose and nozzle sold separately
