

Proven Performance Since 1932.

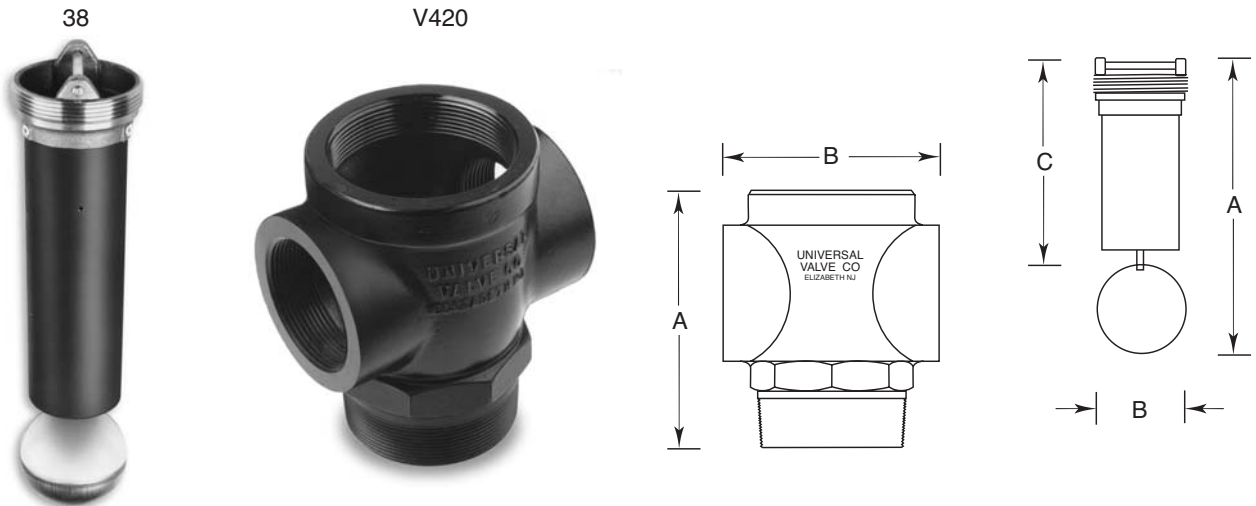

UST OVERFILL PROTECTION

FLOAT VENT VALVE ASSEMBLIES

Application -

The #38 when used in conjunction with the V420 Vent Valve, protects against overfill of the UST.

Part Number - #38 Float Vent Valve & V420 Vent Valve Assembly

Features -

- ✓ The #38 larger diameter, allows a faster delivery rate
- ✓ The #38 Float Vent Valve comes attached to the cage assembly
- ✓ The #38 when used in conjunction with V420 Vent Valve, protects against overfill of UST
- ✓ Signals the transport driver when the tank is filled to 90% capacity, in accordance with current EPA guidelines
- ✓ The #38 is retro-fittable and allows easy extraction for tank
- ✓ For use on gravity delivery only
- ✓ Compatible with E-85

Construction -

- Polymeric-coated steel body
- Brass stem and bushing
- Stainless steel float ball
- 1/8" bleed hole size

Float Vent Valve

Model	Size	Weight (lbs.)	A	B	C
38-301118	3" x 11" x 1/8"	4.4	17"	3"	13"

Vent Valve Assembly

Model	Size	Weight (lbs.)	A	B
V420-0020	0" x 2"	13.9	8"	6-5/8"
V420-2020	2" x 2"	13.4	8"	6-5/8"
V420-0030	0" x 3"	15.7	8"	6-5/8"
V420-3020	3" x 2"	14.4	8"	6-5/8"
V420-3030	3" x 3"	15.3	8"	6-5/8"

Warning:

Universal Valve Float Vent Valve assemblies should only be used in submerged pumping systems, not suction pump systems. It should only be used on gravity drop systems. Do not use where pump off unloading or coax fills are used.

Notice: Universal Valve Co., products must be used in compliance with applicable federal, state, and local laws and regulations. Product selection should be based on physical specifications and limitations and compatibility with the environment and material to be handled. Universal Valve Co., makes no warranty of fitness for a particular use. All illustrations and specifications in this literature are based on the latest production information available at the time of publication.
